SPORTS

BHS VARSITY BASKETBALL TEAM

BY: ANTHONY VILLALOBOS

On March 4th the Varsity basketball team had a home game against Marcellus. They started off strong with six points and Marcellus with zero points. The game started to get intense and Marcellus started catching up! They started catching up by making three pointers. Then Yrral Campbell, one of our basketball team members, was making lots of layups and 2 pointers .

Then it started to get intense again. Marcellus was making layups and three pointers at one point and then the BHS varsity basketball team was making layups and two pointers. It was a close game 38-36 but the Vikings took the loss. The BHS Varsity basketball team did great. They played strong and did their best. Both of the teams did well. But the Vikings will get them next time.

BY: ISMAEL REYNA

Hi my name is Ismael Reyna and I will be interviewing 8th graders saying how they feel about going to High School next year.

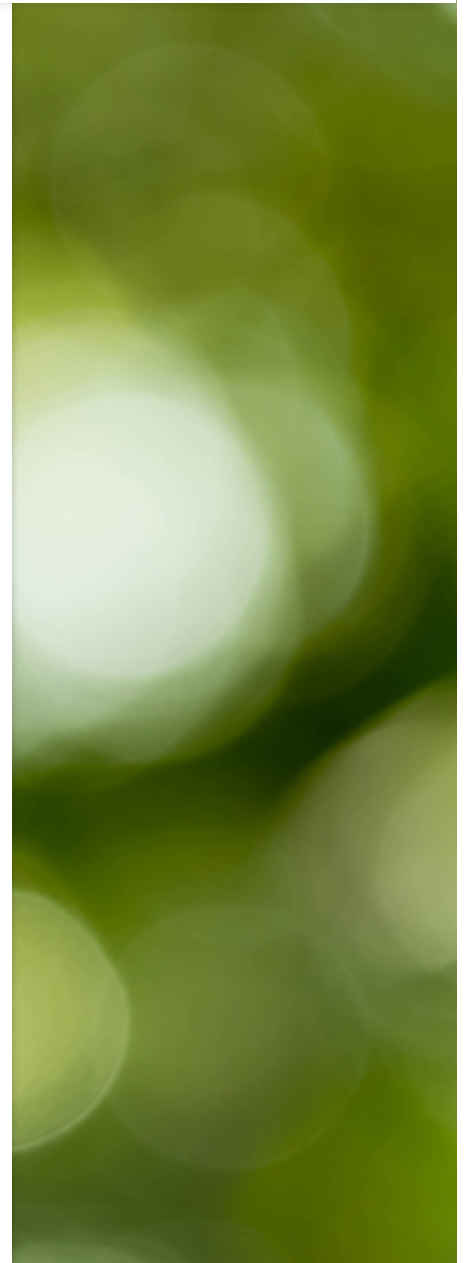

The first people I interviewed were Jessica, Jaxson and Deondra. Jessica says that she "wants to have the work to be easier and she says it is going to be easier for her because she is in a high level Math class." Jaxson said that "he is super cool and a confident student for High School next year." Deondra says he "feels pretty good about next year because he knows teachers up in the High School."

I also interviewed Allan Luna Allan says that he "feels pretty good about next year and a little bit nervous." The last person I interviewed was Caesar Palacios and Caesar said that he "is confident about next year and he is not nervous at all."

Hope these 8th graders have an amazing first year of High School next year!

EDUCATION

BY: MADISON SMITH

There are some schools with therapy dogs to improve their students and staff's learning environment. In schools the dogs help with stress and anxiety.

Do you think there should be therapy dogs in schools? Some negatives of having therapy dogs in school are some students might be allergic or even scared of certain breeds of dogs.

Did you know that at least 11 school districts in Michigan have dog therapy.

Do you think Bangor Public schools should get therapy dogs? Maybe one day Bangor Public schools will get therapy dogs!

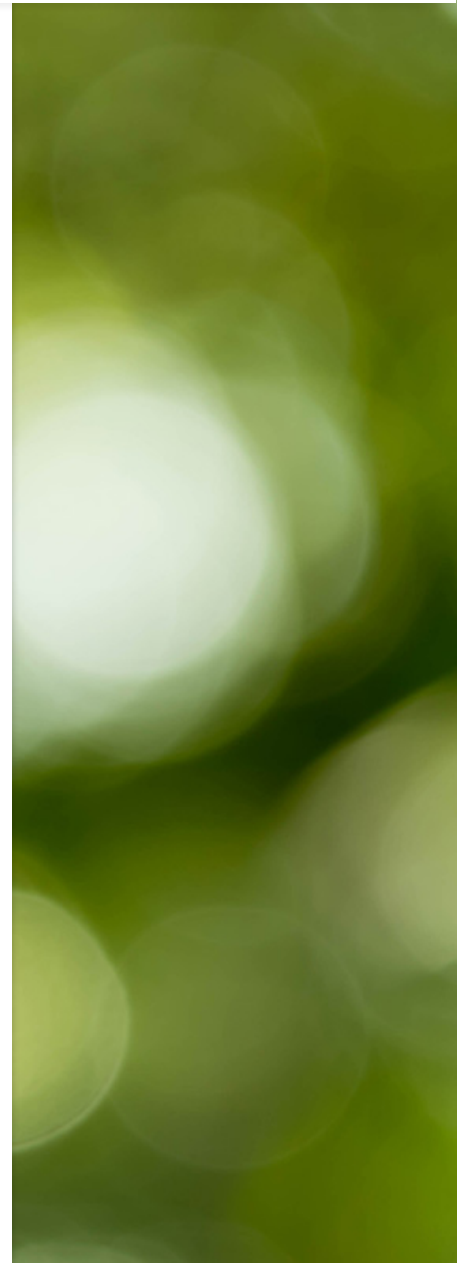

NEWS

ERICK HERNANDEZ REPORTER FOR: COVID RESTRICTIONS

Nowadays many Americans feel like covid restrictions should be dropped. The CDC(Centers of Disease Control) is actually starting to ease restrictions and guidelines. However many people feel like dropping covid restrictions could pose a danger to the elderly and those with weak immune systems. I feel that covid restrictions shouldn't be dropped because it does put the elderly and others at higher risk. But it's not like everyone will follow the restrictions anyway. But as long as the majority of people follow the restrictions then the risks will stay lower than without them.

The vaccine and people getting vaccinated should decrease the number of people getting covid. It will also lower the danger of the elderly and people with weak immune systems. As long as everyone follows current guidelines and rules and still keep in mind of washing hands and being clean then the danger shouldn't increase too much if restrictions are eased.
