## SPORTS

### THE LIONS COMEBACK OF THE YEAR BY: JOSEPHINE SNYDER

Way to go Lions! They struggled at the beginning of the year and made a comeback. They have now won 4 of their games against multiple teams, such as the Commanders on September 18th. They then won their next game on November 6th against the Packers, then against the Bears on November 13th. The last game they played was on November 20th and they won against the Giants. Their next game is on the 24th of November. Lets cheer them on and hope they win!

The Lions team currently has 8 injured/ reserve players. The team has a total of 27 coaches but the head coach is Dan Campbell. He became the head coach in January of 2021. There are around 52 people just on the playing team. They have many more games and many more times to try and win. Their next home game is Sunday December 4th, so buy a ticket and go cheer them on against the Jacksonville Jaguars!

## CHAT

### CELIA CASTILLO BY: ABIGAIL CASTILLO

I would like you to get to know Celia Castillo. We discussed how she felt about different topics. These questions included how do you feel about the world around you, how do you feel about

I asked her what she felt about the world around her including voting, climate change, and if anything excited her with the entertainment portion. She answered me with her first thoughts on the voting. She explained to me that the voting made her feel happy with the overall outcome in which she wishes to see more of this.

Next, she told me that she likes it here because this is where she was born so she's happy, but she'd like to go to Charlotte in North Carolina because she misses her mom.

Last, I asked her about her mental state. With this, she explained to me that she can feel stressed at times because of all the things she still has to do and she would hope it can get easier. Yet, she said with all the struggles she has faced in the past she feels she is very strong and can get through anything.

With this information I would like to mention that asking people about how they feel is very important and we should do it whenever we can because it affects people greatly and could even help people get things that they need off their chest. Mental health is important and we should all take care of ours.

## EDUCATION

### G.R.I.T BY: LILLIE DARLING

G.R.I.T stands for Growth, Respect, Integrity, and Teamwork. G.R.I.T was just recently introduced to the school by the principal, Mr. Marfia. He also gave us T-shirts so we would remember what G.R.I.T means. We also had to swear to follow it if we wanted a shirt. We signed our names on a poster under our first hour teacher's name.

The shirts are cool and are a great way to show school spirit. If you're a student and you haven't already received a shirt, I recommend you talk to the office and see if they have any more left over. The shirts are a great way to remember our school values. I really appreciate them and I hope all the other students at the school do too.

## WHAT'S GOING ON WITH IRAN? BY DANIELA RAMIREZ-MEDRANO

Amini was arrested on September 16, 2022 for not wearing her hijab properly, according to international news coverage. A hijab is clothing covering a woman's hair for maintaining modesty and privacy. It's usually required by the religion of Islam for women. Amini's family allegedly said she died because of the police hitting her multiple times in the head. Women in the northern Tehran region are protesting the attempt of President Ebarhim Raisi's government to re-impose strict hijab rules. Mansa Amini was killed at the age of 22 and died while in police custody. The Iranian police deny these claims.

In 13 cities across Iran, Human Rights Watch documented countless incidents of security forces using excessive or lethal force against protestors. Many people were killed, injured and arrested from these protests. Women are burning head scarves and cutting their own hair. Students didn't attend school classes on a Saturday. Saturday was the first day of the new university semester.

## ENTERTAINMENT

## BLACK PANTHER WAKANDA FOREVER BY ISMAEL REYNA

Black Panther Wakanda Forever is the anticipated last movie of phase four by Marvel. Sadly the beloved actor Chadwick Boseman passed away on August 28, 2020 due to colon cancer at the age of 43 years old. Before he passed away, he was going to play the lead role in the next Black Panther. The movie opened November 11 in theaters worldwide.

The director is Ryan Coogler, who has 4 NAACP image awards, 4 Black Reel awards and an Academy award nomination for best picture. This movie has an amazing cast of people including Tenoch Huerta Namor, Letitia Wright Shuri, Michal B Jordan, Dominique Thorne Ironhart, Angela Bassett, Ramonda, Mabel Cadena Namora and Daniel Kaluuya W'Kabi.

I have been looking forward to seeing this movie ever since the first movie. Hopefully you or your family will be able to see this great movie soon.
