SPORTS

Track And Field By: Anthony Villalobos

Track and field is one of the second most popular sports in the world. Track and field is one of my favorite sports in my opinion. Track and field includes running, jumping, and throwing skills. There are a lot of different events you can participate in. There are about 50 million recreational runners in the U.S.

Also there are more high school and middle school participants in track and field than any other sport. Track and field is not an easy sport to do. Track and field is an intense sport that requires hard work. The hardest thing to do in track and field is the 400 meter hurdles. This is the hardest thing to do in track because you have to jump over hurdles while you sprint.

The most painful event in track and field is the 1500 meters. The shortest race in track and field is the 100 meter dash because it's just a straight race. I encourage anyone who hasn't done track and field to consider doing it because it's a really fun sport.

CHAT

Introducing Anna Beelen By: Nattalii Walters

I interviewed Anna Beelen. She's a student at Bangor High School. She's very interesting and you should take the time to get to know her.

Do you have any friends in different states?

Yes, their names are Nick and Bryce.

What's your favorite subject in high school?

Theater or Choir

What's your favorite show or movie?

Aqua man

Do you have any siblings if so how many?

Yes and she has 6 siblings

What year of middle school was your favorite?

8th grade

What is one thing you would change about yourself?

Her nose

If you could change something about this school what would it be?

Being more patience with work

What is your favorite color?

Green

Favorite middle school teacher?

Mr. Maynard

Favorite sport to play?

Soccer

What is your favorite animal?

snake

Who is your best friend in High School?

Shaylynn Davis

EDUCATION

Tech Visit By: Will Summerhill

We went on a field trip for a tech visit. We talked about where you would go to the tech visit.

And after that we went to all the stations at the tech visit.

When you get the stamps, you have to turn in your paper. Then they draw names. If they draw your name, you win a bag of good stuff inside. You could also win \$50 or \$100 in Amazon gift cards.

you wanted to check out at the tech visit.

I went to the kitchen to see how to cook some food. He talked about cooking.

At the tech visit there were pigs. They talk to us about how to take care of the pigs. I like to touch the pigs.

I went outside to find some of the places. We found construction outside and had to use nails and a hammer to put a board up to make a wall.

At the tech visit I went to a car place and they showed us how to take lugnuts off of a tire. We also put them back on. The car place also showed us the RPM's of the engine. I had to push the accelerator to make it work.

I went inside to the computer graphic design. They showed us how to put two pictures side by side. I put a lion next to a tiger. The teacher showed us how to put the head of the tiger on the lion's body.

After that, we left the tech visit and went back to school. We arrived at the school at 1:49 and we went to the 6th hour. It was fun at the tech visit.

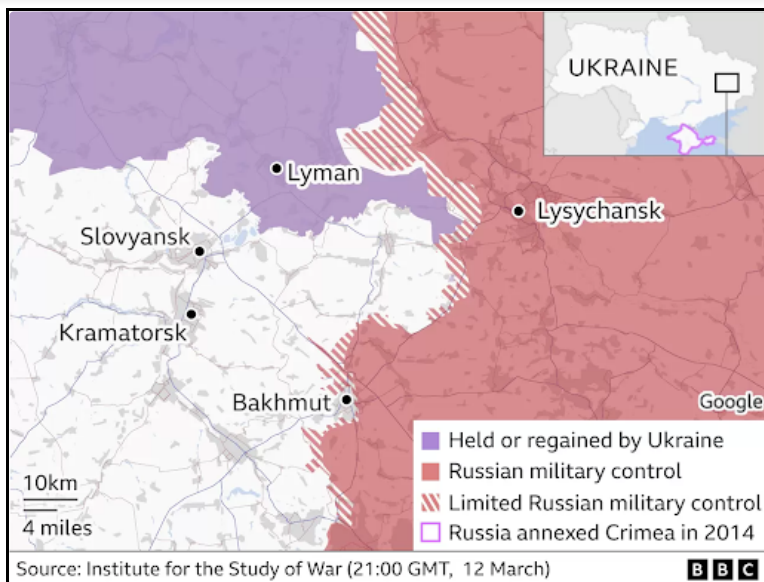

NEWS

The Ukraine War By: Savannah Marfia

Ukraine and Russia have reported inflicting heavy losses as the battle for Bakhmut rages on. Moscow has been trying to take land in the eastern Ukrainian city for months trying to wear each other down. The Ukrainian President Volodymyr Zelensky said Russian forces had suffered more than 1,100 deaths in the past few days. Many soldiers had serious injuries. Russia said it had killed more than 220 Ukrainian service members over the past 24 hours.

Sadly, the BBC is unable to verify the number given by the Russian or Ukrainian side. Before the invasion there were about 70,000 people living in Bakhmut. Now only a few thousand people remain after the invasion. The city was once best known for its salts, gypsum mines, and huge winery. Those who remain in Bakhmut risk a hazardous existence, with four people injured.

I'm very glad America is helping Ukraine because thousands of people are losing their lives because of this war.

ENTERTAINMENT

Ways To Entertain Yourself By: Amelina Quiroz

I'm here to talk about entertainment today. There are a lot of things you can do for entertainment. You could play outside, play video games, or watch a movie. I know a lot of kids from my school play video games. A popular one is Fortnite.

On Fortnite, you can play with your friends and 1v1 them, but you can do that with a lot of games like Call of Duty. Another popular game is Roblox. You can play with friends or with random people. I know a lot of people that like the horror games on Roblox. But if you don't like video games you could binge watch shows, or make cookies. You really just have to find something that you think is fun instead of being on your phone or laptop all the time.
